

10 QUESTIONS TO ASK BEFORE

Choosing Your Solar Installation Company

QUESTIONS	ANSWERS
How many systems have they installed? What is their work history?	
Do they specialize in solar energy, or something else?	
What do their customers say about them?	
Are they able to offer any local incentives?	
Are they NABCEP or otherwise certified?	
What do their warranties cover, and for how long?	
Do they offer a variety of panel, inverter, and battery options?	
What purchase/financing options do they have?	
Do they install their own systems or does someone else do it?	
What will be required for repairs and maintenance?
